

**United States Bankruptcy Court**  
**Southern District of Mississippi**

---

**Notice to All Registered ECF Filers**

**Date:** November 19, 2018

**Issue:** **Security Risk** – ECF/PACER Filing Credentials and Third-Party Services

The Administrative Office of the United States Courts is strongly encouraging registered CM/ECF filers to protect their CM/ECF and PACER filing credentials.

The Administrative Office specifically warns of risks associated with:

- sharing of filing credentials (login and password) with third-party service providers; and
- designating third-party service providers as secondary recipients for Notice of Electronic Filings (NEF) or Notices of Docket Activity (NDA).

Providing filing credentials to a third-party service provider may result in the third-party service provider gaining unauthorized access to sealed/restricted case information and documents.
